QA Engineer

SUMMARY.

I'm QA Engineer experienced in mobile/ web/ API/ DB testing.

I would like to continue improving my professional qualifications. I always try to use recent developments.

I'm an energetic and imaginative person who is able to work alongside other talented IT professionals in creating websites and applications meeting the highest standards. I'm an ambitious person who would like to be noticed, full of energy that is really needed to introduce some variety in a project.
